Bitumen combo machine BCM-120

The machine is designed for spraying bitumen emulsion (priming) before laying asphalt, as well as for filling joints and cracks in asphalt with road bitumen (sealing and waterproofing). It consists of two independent options: a 1000 litre emulsion sprayer and a 120 litre joint filling machine.

Technical data

GENERAL

1. Diesel engine – 14-18 hp
2. Compressor receiver – 25L
3. Pumps drive – hydraulic

1. Silnik Diesel - 14-18 hp
2. Zbiornik sprężarki - 25L
3. Napęd pomp - hydrauliczny

CRACK SEALER

1. Bitumen tank – 120L
2. Bitumen pump – up to 10L/min, 5 bar
3. Hand spraying rod + hose 2m (not heated)
4. Manual mixing
5. Bitumen heating – diesel
6. Heating control – automatic
7. Blowing system

1. Zbiornik bitumu - 120 l
2. Pompa do asfaltu - do 10 l/min, 5 barów
3. Ręczny drążek natryskowy + wąż 2 m (nieogrzewany)
4. Mieszanie ręczne
5. Ogrzewanie - palnik na olej napędowy/gaz
6. Sterowanie ogrzewaniem - automatyczne
7. System nadmuchu

BITUMEN EMULSION SPRAYER

1. Emulsion tank – 1000L
2. Pump – 36L/min, 2 bar
3. Emulsion heating – diesel
4. Hand spraying rod + hose 4m
5. Spraying bar 7 nozzles

Our mission: the production of equipment for the repair and maintenance of roads, which want to ride with pleasure!

6. Pipe line cleaning system and spray bar blowing

1. Zbiornik emulsji - 1000L
2. Pompa - 36 l/min, 2 bary
3. Ogrzewanie emulsji - palnik na olej napędowy
4. Ręczny drążek natryskowy + wąż 4m
5. Listwa natryskowa 7 dysz
6. System czyszczenia przewodów rurowych i przedmuchiwanie listwy natryskowej

Price: 15200 € netto(without trailer)

18600 € netto (on a double-axle trailer with brakes)

(1-year warranty)
